About me

I am an accomplished Mathematics and Computer Science graduate with experience in computer maintenance and cyber services.

I am currently doing a CCNA course with Cisco alongside IBM security course.

I am highly focused, hardworking, vicious and able to work under strenuous conditions with minimum supervision and of unquestionable integrity.

My key attributes include:

1. Dedicated to work
2. Ambitious
3. Able to work under minimum supervision to satisfy and please God, my clients and supervisor
4. Team player who works in group to share knowledge with colleagues
5. Willing to learn at any opportunity that arises

Key Skills

My key skills include

I can perform network infrastructure management such as configuration of routers and switches including troubleshooting of various network issues.

I have knowledge on object oriented programming in Java.

I am also currently undertaking a course on network security to equip me with more skills on network management

I have skills on troubleshooting of hardware and software problems, configuration and installation of computer software e.g. operating systems and Ms. Office systems.

Besides, I have also been trained on digital literacy program technical support by Moi University.
